DETAILED ACTION

1. Applicant amendment filed on 6/5/09 has been considered and made of record.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Muraoka al (JP 08-203949).

Akira et al discloses a component-mounting apparatus comprising: a holding device for holding a component while moving horizontally (see Figs. 1,3); and a positioning device having a sloped portion for engaging and positioning the component held by the holding device when the holding device brings the component into contact with the sloped portion (see Figs. 1, 3).

Regarding the “horizontal movement speed of the holding device” substantially agrees with the horizontal component of the peripheral velocity of the first roller member, with which the component comes into contact. is intended used limitations and the prior art is capable of performing such function.

Response to Arguments

3. Applicant's arguments with respect to rejected claims have been considered but are moot in view of the new ground(s) of rejection.

This application contains claims 15-16 drawn to method invention nonelected. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claims 8-9 and 12-13-14 would be allowable if rewritten to include all of the limitations of the base claim and any intervening claims.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
